## ABOUT ME

---

I am a frontend developer with over 2 years of experience building scalable, attractive, and functional web applications. I have experience working with both local and international teams. In addition to my technical background, I stand out for my quick learning ability, advanced English level, and proactive attitude.

## WORK EXPERIENCE

---

### Freelancer – Web Development & Digital Marketing March 2025 – Current

- Developed responsive websites for small businesses and online stores.
- Managed social media, designed graphic assets, and ran basic Google Ads campaigns.
- Handled invoicing, customer support, and e-commerce setup.

### Frontend Developer – Dev.Pro (Remote) August 2024 – February 2025

- Built custom React solutions for clients in the United States.
- Worked with SuiteScript on the NetSuite platform.
- Used TypeScript, Git version control, and agile methodologies.

### Frontend Developer – IT Rock (Hybrid) March 2023 – February 2025

- Developed backoffice tools and landing pages for consumer brands.
- Used Next.js, Tailwind, SCSS, and Angular.
- Participated in daily Scrum meetings and managed tasks in Jira.

### Technical Support & Customer Service – Super Fiesta May 2022 – December 2022

- Assisted customers with general inquiries.
- Installed and maintained software systems.
- Managed networks and data using Excel.
